Student Senator Caucus

Policy and Procedures

Composition, Criteria, and Responsibilities of Student Nominees to the York University Board of Governors

Purpose

A responsibility of the Student Senator Caucus is to oversee the elections for student nominees to the York University Board of Governors. In light of the importance of this responsibility, it is in the best interest of York University Students that the Student Senator Caucus provide fair stipulations regarding the composition, criteria and election for nominees. It is also in the best interest of York University Students that the Student Senator Caucus ensure that ratified student governors can fulfill their responsibilities that are imperative to the position of a student governor.

Composition

1) The election of student governors will rotate annually with graduate/professional students being elected in odd number years (i.e. 2009) and undergraduate students in even number years (i.e. 2008). In the event that no nomination from a preferred constituency is put forward in a corresponding year (i.e. an undergraduate student not coming forward in an even numbered year), the nomination period for candidates will be extended and open to all registered York University students.

2) In the event that a student governor seat is vacated, the Student Senator Caucus will meet in a special meeting to recommend to the Executive Committee of the Board of Governors to allow the runner-up in the preceding election to occupy the vacancy. If ratified by the Board, this individual would serve until the next spring election.

Criteria

A candidate seeking candidacy to the York University Board of Governors must fulfill the following criteria:

1) A candidate must be registered as a full-time York University Student and be eligible to maintain full-time status for the duration of their tenure as defined by the program in which they are currently registered.

2) A candidate cannot be a member of the Executive Council of the York Federation of Students, Graduate Students Association or Glendon College Student Union during their projected term on the York University Board of Governors due to the conflict of interest that is inherent in serving on these two bodies simultaneously. In addition, a candidate who is or becomes a member of a certified trade union or employee association representing York employees is not eligible to serve as a governor while they are actively serving as an officer or other official of their union or employee association.

Rationale:

Executive members of student unions have a primary task of lobbying the York University administration and the Board of Governors regarding pertinent issues concerning York University students. Thus, an individual who is a member of the executive of the aforementioned student unions have a duty to that organization and serving on both bodies simultaneously may compromise the role and effectiveness of their efforts.

3) A candidate must submit two letters of reference to the Student Senator Caucus based on a student's commitment to York University, knowledge of the structure and operation of York University, and experience in prior leadership and governance endeavors. A candidate must also submit a curriculum vitae that outlines prior employment, community and governance experiences both internal and external to York University.

4) A candidate must submit a declaration of interest of approximately 250 words that outlines a candidate's motivation on becoming a member of the York University Board of Governors.

Note: The declaration of interest will be published for the York Student Community through the University Secretariat web page (<http://secretariat.info.yorku.ca/board-of-governors/>) and, if possible, through other York communications outlets.

Rationale:

The aforementioned documentation is essential in illustrating a candidate's area of abilities and commitment to York University. It illustrates a candidate's knowledge of the structure and operation of York University, leadership skills, degree and level of involvement, and ability to transfer ingenuity into practice. Furthermore, in fulfilling these requirements to become eligible for candidacy in a general election, a candidate is illustrating their commitment to the role as a member of the York University Board of Governors.
